Standard and available equipment may vary by model. Please see back of brochure.

THE 2021 G-CLASS

Funny thing about the names of most SUVs: They all sound like global wayfarers who've led lives of bold adventure. But if you want to express over 40 years of traveling to some of the most challenging places on all seven continents – and returning home safely – it only takes one letter: G. While it's short for *Geländewagen*, or cross-country vehicle, it's also the start of some of the most interesting stories on earth.

KEY FEATURES

Roaming the world or rolling up to the red carpet, no other vehicle feels so at home in such a range of scenarios. The G-Class is more than an icon of adventure. It's a legend you can live for yourself.

LUXURY 08

Heated power front seats with 3-position memory, ventilation* and/or massage*; split folding rear seat

64-color LED ambient lighting

Burmester® surround sound

3-zone climate control with cabin-air ionizer

More than 50 upholstery choices* in hand-fitted leather, Nappa leather, and G *manufaktur* Nappa leather, including two-tones and contrasting elements

CAPABILITY 09

V8 biturbo or handcrafted AMG V8 biturbo engine

Permanent all-wheel drive with 2-speed transfer case

Three lockable differentials¹

18" to 22"* alloy wheels²

DYNAMIC SELECT drive modes

Double-wishbone front/rigid-axle rear suspension with coil springs; adaptive AMG RIDE CONTROL (G 63)

SAFETY 10

Blind Spot Assist, PRE-SAFE® with PRE-SAFE Sound hearing protection technology

PARKTRONIC with Active Parking Assist, Rear Cross-Traffic Alert, Trailer Stability Assist

Rearview camera (G 550) or multicamera Surround View System (G 63)

Active Distance Assist DISTRONIC®

Active Lane Keeping Assist, Speed Limit Assist

TECHNOLOGY 10

Dual 12.3" digital instrument cluster and central multimedia displays

Steering wheel with Touch Control Buttons, console rotary/touchpad controller

Apple CarPlay™ and Android Auto

COMAND® system with navigation

Mercedes me connect featuring smartphone app with Remote Start, 4G LTE WiFi,* and more³

YOUR DESTINATION IS FOREVER ITS DESTINY

For a vehicle that's been so many places, the G-Class has stayed true to its mission year after year: Confidence. Civility. And off-road capability few can match, thanks in part to three pushbuttons on its dash—numbered 1, 2 and 3. When pressed, they lock its center, rear and front differentials to progressively elevate its off-road prowess in a way no ordinary SUV can compete. Switched off, a G-Class reveals a different capability: to coddle its passengers in finely tailored appointments and a feeling of unmatched solidity. The simple truth is that a G feels built like no other SUV because it literally is built in a manner all its own. Each G-Class is crafted

virtually entirely by hand in Graz, Austria, from its rigid frame to its supple upholstery. It's a way of bringing a vehicle to life that most automakers have long forgotten—if they ever knew it in the first place. It's why something as simple as the positive click of a door latch—often described with the words “bank vault”—is not just part of its body but its soul. And it's why, when the G-Class was recently re-engineered from the ground up, the latches were one of just four components carried over intact. Five if you count its unwavering, unmistakable character. It's why, wherever you go in your G, you're destined to feel in charge, at ease, and at home.

MODELS

Permanent all-wheel drive with
2-speed transfer case and
three locking differentials

MAKE IT YOUR KIND OF ONE-OF-A-KIND

Rugged individualists have been venturing the earth in their G-Class for decades. One owner took his G, a blue one he named Otto, on a 560,000-mile trek that lasted 26 years. Even on a trip to the store, a G-Class has something special for the more refined individualists. Its lavish appointments and modern technologies can be enveloped in literally dozens

of paint colors, leathers, seat designs, wheels and steering wheels—plus wood, metal or carbon-fiber trim inside, and color-keyed, gloss black, or matte-black “Magno” accents outside. All told, there are more than a million possibilities—and that’s without counting the 64 colors of ambient lighting you can change at any time—to create a G that’s totally you.

LUXURY HIGHLIGHTS

Heated, ventilated* and massaging* power front seats, each with 3-position memory

Heated outboard rear seats

64-color LED ambient lighting

3-zone climate control with dust, pollen and odor filters; Air Balance cabin-air ionizer

Burmester® Surround Sound System

Heated steering wheel*

Power tinted glass sunroof

Heat- and noise-insulating windshield, front door, and sunroof glass

More than 35 gloss and matte paint colors*

More than 50 choices in leather and Nappa leather upholstery, stitching and accents*

TAKE IT TO THE TOP OF YOUR WORLD

The term “proved” has a way of meaning something has never been improved since its inception. The G has never stopped doing both, gaining new abilities to complement its legendary capabilities year by year. More recently, it underwent a dramatic renovation to become more agile and refined on-road. And in case you’re worried that created compromise, every

core off-road stat—ground clearance, hill-climbing and fording¹—grew better in the process. It’s why the improved G-Class is still proved on the 4,740-ft Shöckl mountain near its birthplace. And it’s how a G carries your passengers in serene comfort, while giving you a sense of calm command. Whether you’re about to cross the desert, or going out for dessert.

PERFORMANCE HIGHLIGHTS

Engine: 416-hp V8 biturbo (G 550), or handcrafted 577-hp AMG V8 biturbo (G 63)

Paddle-shifted 9-speed 9G-TRONIC or AMG SPEEDSHIFT® TCT automatic transmission

Permanent all-wheel drive, 2-speed transfer case, 3 lockable differentials¹

DYNAMIC SELECT driving modes, including Comfort, Sport and customizable Individual

18" to 22"* alloy wheels²

Double-wishbone front/rigid-axle rear suspension; adaptive damping (G 550*) or adaptive AMG RIDE CONTROL (G 63)

9.5" ground clearance, 27.5" fording depth, 100% max climbing grade, 70% max lateral slope tilt⁴

Sport (G 550*) or AMG Performance exhaust

*Optional or not available on some models. Please see endnotes at back of brochure.

21

Mercedes-Benz engineers have long believed that the best way to live in the moment is to stay prepared for what might come next. It's why every G-Class is equipped to help you find adventures and avoid misadventure.

VIRTUAL EYES KEEP AN EYE OUT FOR YOU

An advanced suite of driver assists⁵ helps ease your way through the wilds of traffic, cities and parking spots—and they're all standard. Radar can watch traffic ahead for smoother cruising and forward collision avoidance. If you tow, you'll appreciate how Trailer Stability Assist can help quell trailer sway. Your G can help you size up open parking spaces, guide you in hands-free, and even alert you if it detects approaching cross-traffic when it's time to back out. And if the unthinkable is about to become the unavoidable, PRE-SAFE can take action to optimize the restraint systems, close the windows, and even emit a special tone to pre-trigger your ears' natural defenses.

SAFETY HIGHLIGHTS

- Radar-based Active Brake Assist frontal collision mitigation⁶; Blind Spot Assist⁷
- ATTENTION ASSIST[®] driver drowsiness detection; 10 air bags; PRE-SAFE[®] with hearing protection technology⁸
- Rearview camera or Surround View System^{*9}
- PARKTRONIC with Active Parking Assist and Rear Cross-Traffic Alert¹⁰
- Active Distance Assist DISTRONIC[®] cruise control; Speed Limit Assist
- Active Lane Keeping Assist
- Trailer hitch and Trailer Stability Assist¹

IT GOES FAR TO KEEP YOUR WORLD CLOSE

The G-Class digital cockpit is designed to keep vital info within view, and the most important controls fingertip-close. Crisp, vivid 12.3" displays place a reconfigurable instrument cluster side-by-side with a central multimedia screen for navigation, entertainment, vehicle settings, an off-road display, and more. You can control it all via smartphone-like touchpads on the steering wheel, an intuitive twist-click/touchpad controller on the console, or advanced voice control that can even let you operate comfort features. Burmester,[®] German crafters of high-end home audio, tends to your listening pleasure. With a 10-channel digital amp, the 15-speaker surround sound system's drilled metal grilles satisfy ears and eyes alike.

TECHNOLOGY HIGHLIGHTS

- Dual 12.3" displays: reconfigurable digital instrument cluster, central multimedia screen for navigation, audio and vehicle settings
- Console rotary/touchpad controller, and steering-wheel Touch Control Buttons
- COMAND[®] navigation¹¹ with voice control of numerous cabin features
- Apple CarPlay[™] and Android Auto¹²
- In-car WiFi^{*} with TuneIn Radio^{®3}
- Dual USB ports
- LED Intelligent Light System headlamps with Adaptive Highbeam Assist

^{*}Optional or not available on some models. Please see endnotes at back of brochure.

Do you need a vehicle that's been to Siberia just to handle the rigors of suburbia? Turns out, that's the beauty of the G-Class. Everywhere it's gone, it's brought back something meaningful: The experience that makes it more adept, and more adaptable. And for the people within, the experiences that make a life well-lived. So while you might not require the full breadth of its talents every day, you can appreciate the depth of its character anywhere: The rush of V8 biturbo torque that perfectly complements its commanding view. The pairing of advanced technologies and purist hardware that inspire your confidence on-road and off. The harmony

of solid and supple as you latch its door from your leather-lined, massaging* seat. The way its upright body optimizes spaciousness and maneuverability—one of its original design goals that it's never outgrown. When Mercedes-Benz set out to create a vehicle that united civility with capability, they had no idea how far it would go. Nor how well it would fit in—from a lonely desert to a lively city. And with seemingly endless options in paint, cabin fittings, and body accents in color or black, gloss or matte, you can take your G far, too. Even before you start an epic journey to the North Pole. Or maybe just South Beach, Easthampton or West Los Angeles.

Elemental to being a G-Class is a deep legacy of hand-built endurance, proven in extremes of terrain, temperature and topography. A Mercedes-AMG birthright is its handcrafted performance—trained, tested and finely tuned in the rigors of motorsports. Nowhere do these dueling spirits shine as one like the AMG G63. Behind its vertical grille bars awaits a racing-bred biturbo V8 brought to life by a single master engine builder. Its 627 lb-ft of torque is sent to all of its 20" to 22"* wheels with a 60% rear-axle bias, for a sportier feel. Four genuine sidepipes turn 577 hp into thunder as 60 mph arrives in a 4.5-second¹³ flash of lightning. AMG DYNAMIC

SELECT—with three drive modes for on-road, three for off—lets you set up the adaptive damping, 9-speed shifting and more to suit the surface and your driving state of mind. An additional Individual program lets you make your own mode. An upper strut brace reinforces its double-wishbone front suspension. The result is a crisp-cornered SUV that's crisp in corners. Flat-out fast, yet well-rounded for everyday use, from its hand-tailored appointments to its digital cockpit. And while its iconic design is like no other SUV, its massive personalization menu lets you configure yours like no one else's G63—crafted by hand, to put the world at your feet.

HANDCRAFTED 577-HP AMG V8 BITURBO. PERMANENT 4-WHEEL DRIVE, 2-SPEED TRANSFER CASE, THREE SEQUENTIALLY LOCKABLE DIFFERENTIALS.¹ AMG SPEEDSHIFT® TCT 9-SPEED. AMG DYNAMIC SELECT DRIVE MODES. AMG PERFORMANCE SIDEPIPE EXHAUST. AMG RIDE CONTROL SUSPENSION. 20" AMG® WHEELS (OPTIONS TO 22")² AMG TRAIL PACKAGE WITH OFF-ROAD OPTIMIZED SUSPENSION, UNDERGUARD, ALL-TERRAIN TIRES, AND MORE.⁴

OWNERSHIP & EXPERIENCE

DAILY COMMUTE OR ROADTRIP, THOUGHTFUL TECHNOLOGY HELPS MAKE ANY JOURNEY A JOY.

Mercedes me connect puts a network of features in your car, on your smartphone, and in the digital world around you.³ And all of them collaborate to help keep you on track, on time, and feeling you're on top of your real world.

- You can remote-start your car, locate where it's parked, configure vehicle settings from your phone, and more.
- You can look up destinations on your phone and send them to the COMAND® navigation in your car.
- You can offer WiFi to your passengers, and enjoy audio from all over the planet with TuneIn Radio.

The map database for your car's COMAND navigation system can be updated in your driveway, over the air, up to twice a year—with no need to bring it to the dealership.

WHEREVER YOU DRIVE, THERE'S A TEAM OF SUPPORTIVE PEOPLE LOOKING OUT FOR YOU.

Mercedes-Benz was the first automaker to introduce its own Roadside Assistance Program in the US. For more than 35 years, customers have called on—and counted on—factory-trained experts in times of need.²²

- A button in your car can connect you. If an air bag or seat-belt tensioner is activated, your car can place the call on your behalf, and even transmit your location.
- They can send help—usually a trained dealer service technician—to your location, even for a jump-start.
- If you see a warning light, so can the experts, and they can often help diagnose trouble over the phone.

Your Mercedes-Benz dealer is helping make service and maintenance even more convenient, with options such as Express Service, Mobile Service, pickup and delivery, online scheduling, and contactless payment. Your dealer can tell you more about the specific benefits they offer.

YOUR MERCEDES-BENZ EXPERIENCE SHOULD ALWAYS FEEL SPECIAL.

Driving a Mercedes-Benz feels like joining a club, as well as a family. Wherever you go, you're part of a history that started with the first car, and always keeps racing ahead.

- For decades, groundbreaking innovations have protected, entertained and indulged Mercedes-Benz drivers first. While many have gone on to become the standard for all cars, you get to drive the future, today.
- From the AMG Private Lounge to #MBPhotoPass on Instagram, Mercedes-Benz owners have many ways to connect and interact.

Your car and your dealer are in on it, too.

- *Mercedes me* lets your car communicate its service needs to your preferred dealer.
- Your dealer can reach out to you to book an appointment or offer drive-in service.

COMMITTED TO COMMUNITY

Mercedes-Benz USA is committed to educating and empowering the next generation of diverse leaders.

To help equip them with the tools for success, MBUSA partners with two national organizations that invest in the futures of young people in communities across the country. As a Mercedes-Benz driver, you become a part of this effort to give hundreds of thousands of youth a better life today, and all of us a brighter tomorrow.

Learn more about how Mercedes-Benz USA gives back at MBUSA.com/community

A nationwide network of youth sports programs, Laureus Sport for Good USA is focused on improving the health, education, employment and social cohesion of youth in underserved communities. Since 2012, Laureus USA has helped nearly half a million young people in 150 cities.

To learn more, visit laureus.com

JOHNNY MAC SOLDIERS FUND

Johnny Mac Soldiers Fund helps honor military service and sacrifice by providing scholarships to veterans and military family members—particularly the children of our nation's fallen and disabled. Since 2014, Johnny Mac has awarded more than \$16 million in scholarships to some 2,000 students.

To learn more, visit johnnymac.org

ENDNOTES

* Item is optional or not available on some models. See *Build Your Own* in this brochure or visit MBUSA.com for more information.

- 1 ESP, 4-ETS, ABS, Brake Assist and Trailer Stability Assist do not operate when the differential locks are engaged. Locked differentials will limit steering ability.
- 2 Lower-aspect-ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions. All-terrain tires may provide increased noise and reduced ride comfort compared to all-season tires.
- 3 All *Mercedes me* services operate only where cellular and GPS signals are available, which are provided by third parties and not within the control of Mercedes-Benz USA, LLC. *Mercedes me connect assist* services, and 3 years of *Mercedes me connect* services are included at no additional charge with new-vehicle sales and leases at an authorized Mercedes-Benz dealer. Models with COMAND® navigation also include 3 years of over-the-air map updates (up to twice per year), 3 years of live traffic information provided by HERE Technologies, and a 1-month trial (up to 1GB) of in-vehicle WiFi and streaming audio. Subscriber Agreement is required for service to be active. Some services are only available on select vehicles. Your PIN is required to use certain services. Connection may be limited by cellular signal and other factors. Features may be introduced and updated at varying dates, and may also require a vehicle software update. Some services may be limited or restricted in some areas. Driver is responsible for complying with traffic and other laws. The *Mercedes me connect* Mobile App is compatible with Apple iPhone® models and Android-based phones, and may require a software update. See your dealer or MBUSA.com/mercedesme for details.
- 4 Off-road driving should only be attempted by drivers with the necessary skill, experience and understanding of the vehicle's limits. Read Operator's Manual before driving off-road or in deep water.
- 5 Even the most advanced safety systems may not be sufficient to avoid an accident. Please refer to more detailed information on specific systems elsewhere in this brochure, at MBUSA.com, and in the vehicle's Operator's Manual. Some systems may be optional.
- 6 Active Brake Assist may not be sufficient to avoid an accident. It does not react to certain stationary or suddenly moving objects or pedestrians, may not react in certain situations where objects cannot be clearly identified, nor does it recognize or predict the curvature and/or lane layout of the road or every movement of vehicles and pedestrians ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. See Operator's Manual for system operating speeds and additional information and warnings.
- 7 Blind Spot Assist is a warning system only. Blind Spot Assist may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It must not be used as a substitute for driver awareness and checking of surrounding traffic conditions. See Operator's Manual for system's operating speeds and additional information and warnings.
- 8 PRE-SAFE® closes the side windows when the system's sensors detect side movements that suggest a possible rollover or side impact. When PRE-SAFE closes the side windows, a small gap is left near the fully closed position. Audio/multimedia system must be turned on for PRE-SAFE Sound to operate.
- 9 Rearview camera and Surround View System do not audibly notify driver of nearby objects and are not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions and the presence of dirt, ice or snow on the cameras.
- 10 Parking assistance systems are not substitutes for driver attention to the immediate surroundings, as well as any people, animals or vehicles in or approaching the vehicle's maneuvering range. System cannot determine if a space is legally available or of a suitable surface for parking. Rear Cross-Traffic Alert is not a substitute for actively checking around the vehicle for any obstacles or people. It may not detect certain objects based on their size, path, proximity or speed and angle of approach, or due to sensor obstruction, and does not control steering angle. See Operator's Manual for additional information, tips and warnings.

- 11 While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or visual displays once the vehicle has been stopped in a safe place. Maps do not cover all areas or all routes within an area.
- 12 Apple CarPlay™ is a product of Apple Inc. Android Auto is a product of Google Inc. Device and app providers' terms and privacy statements apply. Requires connected compatible device and data plan. Apps, content and features are selected solely by their providers. Connection to apps and streaming services may be limited by the device's network connection. Data usage is routed through device and subject to fees, charges and restrictions in user's wireless plan. Vehicle's factory audio/information interface may not be used simultaneously with Apple CarPlay or Android Auto. When Apple CarPlay or Android Auto is in use, the steering-wheel voice control button accesses Siri® or Google voice recognition software for voice commands.
- 13 Stated rates of acceleration are estimated based upon manufacturer's track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load.
- 14 Unsecured cargo can become hazardous in a collision. Always secure cargo using the floor-mounted tie-downs.
- 15 Overall length includes rear-mounted spare tire, but does not include front brush guard.
- 16 Read Operator's Manual before towing. In some states, aftermarket trailer brakes are required. See dealer for details.
- 17 Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST® is a warning system only. ATTENTION ASSIST and Active Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury. See Operator's Manual for system's operating speeds and additional information and warnings.
- 18 Active Distance Assist DISTRONIC® cruise control is not a substitute for active driving involvement. It does not adapt cruising speed in response to stationary objects, nor does it predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. See Operator's Manual for system's operating speeds and additional information and warnings.
- 19 Speed Limit Assist does not adjust vehicle speed, and is not a substitute for driver awareness to posted speed limits and other conditions. Driver is responsible for safely operating vehicle in accordance with local traffic laws and driving conditions.
- 20 The purchase of a new, SiriusXM®-equipped vehicle includes a 6-month introductory subscription to the SiriusXM All Access package. Eligible pre-owned vehicles equipped with SiriusXM will receive a 3-month trial subscription to SiriusXM All Access package. Trial length and service availability may vary by model, model year or trim. If you decide to continue your subscription after your trial, the plan you choose will automatically renew and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming subject to change.
- 21 Obey local speed and traffic laws.
- 22 Roadside Assistance repairs may involve charges for parts, service and towing. Vehicle must be accessible from main roads. Depending on the circumstance, these services may be provided by an outside provider, courtesy of Mercedes-Benz Roadside Assistance. Restricted roadways, acts of nature and vehicle accessibility may limit our ability to provide services to you. For full details, eligibility requirements, and limitations/exclusions of Sign and Drive services, as well as the Roadside Assistance Program, please see your dealer.
