## Driving Journal:

Build an online diary of past trip information.

## Service Description:

Driving Journal gives the customer online access to vehicle location and a journal of past vehicle trips. On the mbrace Customer Portal the customer can view a day-by-day snapshot of all routes the vehicle has traveled. Driving Journal also lets the customer personalize the experience by loading a profile picture and assigning a nickname.

Customers also have the ability to turn Driving Journal on or off and to select an interval of 6 or 12 hours during which it will remain active. Elements of this service are also available via the mbrace Mobile Application.

## How It Works:

- STEP 1:** The customer logs in to the mbrace Customer Portal and selects ONLINE TOOLS.
- STEP 2:** The customer selects the LOCATION-BASED SERVICES button, which will open a new browser window.
- STEP 3:** To begin building the Driving Journal, the customer selects DRIVING JOURNAL, and can select to activate the Driving Journal for 6 or 12 hours.
- STEP 4:** The customer can then choose to view the vehicle's current location on the online map, or simply allow the vehicle to build its Driving Journal history automatically during trips.
- STEP 5:** After the 6 or 12 hour period, the vehicle's Driving Journal session stops recording vehicle location, and the information is stored for the customer to review online.
- STEP 6:** When the customer revisits the website, they can view the trip history, hide Driving Journal results or also have the option to turn Driving Journal back on.
