

**BENEFITS:**

- ▶ Reinforces safe driving with the ability to monitor speed
- ▶ Ease of use online
- ▶ Sends timely alerts

**REQUIREMENTS:**

- ▶ MY013 and newer vehicle
- ▶ Vehicle cellular coverage
- ▶ Vehicle GPS satellite signal to identify location
- ▶ Access to the mbrace Customer Portal via the Internet

**FEATURES:**

- ▶ Issues alert when speed threshold is exceeded. Actual speed is not recorded
- ▶ History of alerts can be viewed online
- ▶ Customers have the ability to choose preferred communication method

## Speed Alert:

Reinforce safe driving behaviors with automatic speed alerts.

## Service Description:

Speed Alert enables customers to pre-set a speed threshold in their vehicle which, when exceeded, will trigger an alert that is sent to them via email or text message. Speed Alert provides a great way to reinforce positive driving behaviors to help keep family members safe.

Using “Online Tools” on the mbrace® Customer Portal, the customer enters the specific speed threshold and selects the preferred method of communication, then saves the alert. If drivers of the vehicle exceed this speed threshold the customer will receive an alert via email or text message. A history of alerts for the vehicle is also available for review.

Speed Alert is only available through the mbrace Customer Portal. The service is not available by calling the mbrace Response Center or with the mbrace Mobile Application.

## How It Works:

- STEP 1:** The customer logs in to the mbrace Customer Portal and selects “Online Tools.”
- STEP 2:** The customer selects the LOCATION-BASED SERVICES button, which will open a new browser window.
- STEP 3:** The customer selects the ADD SPEED ALERT button, enters the speed threshold and selects either email or text message for the preferred method of communication. The customer then saves the speed alert.
- STEP 4:** If the vehicle exceeds the speed threshold, an alert is sent to the customer. The alert is also saved within a history of other alerts that can be viewed from the mbrace Customer Portal.
- STEP 5:** If the customer does not re-visit the mbrace Customer Portal to review their Speed Alert settings, they will receive a reminder via email that their Speed Alert settings will expire. A speed alert will remain active for 60 days before a usage reminder is sent.
