Standard and available equipment may vary by model. Please see back of brochure.

THE 2021 GLB

Can you upgrade your ride without upsizing it? If compact SUVs tend to leave you wanting, size up a GLB. With all its great ideas, generous space and big-time fun, it'll have you wanting to go everywhere in it: Up mountains and uptown. Into the wild, and out with friends. It's cleverly packaged, and packed with intelligence. Because you don't need a big footprint to make giant leaps. Or to leave a big impression.

KEY FEATURES

A turbo and eight speeds turn torque into traction. A cockpit assistant turns talk into action. The bold design puts more fun into functional, and lets you pack more in its back. It's compact. You live large.

LUXURY 08

LED headlamps; 64-color LED ambient lighting*
Power front seats, each with 3-position memory
Power liftgate, with hands-free* operation
Heated or heated/ventilated front seats,* heated steering wheel*
Dual-zone climate control with dust and odor filters
Burmester® surround sound*

CAPABILITY 09

Inline-4 turbo or AMG-enhanced inline-4 turbo engine
40/20/40-split folding/reclining/sliding 2nd-row seats;
50/50-split folding 3rd-row seats with EASY-ENTRY*
18"-20" alloy wheels! DYNAMIC SELECT drive modes
Variable-torque 4MATIC® all-wheel drive,* Off-Road Engineering Package w/Downhill Speed Regulation*
Adjustable suspension w/adaptive damping* or AMG RIDE CONTROL w/3-stage damping (GLB 35)

SAFETY 10

Rearview camera, Blind Spot Assist with Exit Warning
Intelligent Drive* driver assistance suite, including Active Distance Assist DISTRONIC®, Active Steering Assist, Active Brake Assist w/Cross-Traffic Function, Active Lane Change and Speed Limit Assists, PRE-SAFE® PLUS, PRE-SAFE Sound, Route-based Speed Adaptation
PARKTRONIC with Active Parking Assist and Surround View System*

TECHNOLOGY 10

Dual 7" or 10.25"* digital instrument cluster and central multimedia touchscreen, steering-wheel Touch Control Buttons, console touchpad
Apple CarPlay™ and Android Auto
Mercedes-Benz User Experience (MBUX) w/"Hey, Mercedes" voice assistant; MBUX gesture control*
Mercedes me connect featuring smartphone app with Remote Start, 4G LTE WiFi,* and more²

FITS PERFECTLY IN ALL THE RIGHT PLACES.

Where will your GLB take you today? A favorite Saturday morning back road? Night out in the city? Day 15 of the road trip you've been planning for years? With turbo power, agile handling, and a state-of-the-art digital cockpit, even the daily commute delivers more fun in the most spacious compact SUV to wear the Three-Pointed Star. That's because of all the GLB does to earn the icon in its grille: Innovative technology, highlighted by a lifelike cockpit voice assistant. Advanced safety and driver-assistance systems, like its larger siblings. And confidence in every action. The bold style of its upright shape takes a solid stance, with black fender

flares, 18" alloy wheels, sleek aluminum roof rails, and 100% LED lighting—all standard. Four wide doors and a power liftgate open up to a cabin where rugged versatility meets thoughtful luxuries. Like memory for the power front seats. A 2nd-row seat that folds three ways for cargo, and slides two ways for comfort. And even the option of a 3rd-row seat, just in case today's agenda suddenly includes unexpected soccer-team carpool duties after school. In any situation—from the warehouse club to the nightclub scene to a scenic overlook a thousand miles from home—your GLB has a way of being the right SUV for whatever, wherever and whenever.

MODELS

- GLB 250 SUV
221-hp inline-4 turbo, 8-speed dual-clutch automatic, front-wheel drive
- GLB 250 4MATIC SUV
221-hp inline-4 turbo, 8-speed dual-clutch automatic, variable-torque 4MATIC® all-wheel drive
- AMG GLB 35 SUV
AMG-enhanced 302-hp inline-4 turbo, 8-speed AMG SPEEDSHIFT® DCT dual-clutch automatic, AMG Performance 4MATIC all-wheel drive

INNER SANCTUM, OUTGOING SPIRIT

Like all Mercedes-Benz SUVs, the ruggedly capable GLB is an outdoorsy type that brings you the great indoors as well. Power front seats feature memory, power lumbar support, and extendable thigh support. You can accent the sleek digital dash and doors with available 64-color ambient lighting—even the jet-style air vents. First-cabin comforts continue in the

second row: 5.5" of fore-aft slide and multi-angle seatbacks for added comfort or some extra cargo room. The climate control helps filter out allergens and odors. Burmester®, a revered German creator of high-end home audio, can turn the cabin into a music hall. Or open the available giant power glass sunroof, and take in a concert under the stars.

LUXURY HIGHLIGHTS

- Power front seats with 3-position memory
- Heated and/or ventilated front seats*
- Sliding/reclining 2nd-row seats³ (5.5" slide standard, or 10.5" with 3rd-row option)
- Dual-zone climate control with dust, pollen and activated-charcoal odor filters
- Household-type 115V power outlet

- Power liftgate; KEYLESS-GO®*
- 64-color LED ambient lighting, including dash vents*
- Burmester® Surround Sound System*
- Heated steering wheel*
- Power tinted-glass Panorama roof*

*Optional or not available on some models. Please see endnotes at back of brochure.

SEIZE THE DAY, DEFY THE SEASONS

With room for up to 62 cubic feet of cargo³ with all the rear seats folded, you can pack a lot into a GLB. It packs quite a punch of its own, too: a twin-scroll turbo, CAMTRONIC variable valve timing, and clever friction-reducing innovations deliver strong thrust without the thirst of some SUVs.⁴ Eight speeds and dual clutches—but no clutch pedal—help keep the

torque on tap for quick response. Available 4MATIC[®] all-wheel drive helps make sure that torque goes to the wheels with better grip. DYNAMIC SELECT lets you fine-tune performance with one button, from Comfort to Sport and more. And off-road features in the GLB 250 4MATIC make it at home on a range of terrains. Even unladen, a GLB is action-packed.

CAPABILITY HIGHLIGHTS

- 2.0L inline-4 twin-scroll turbo engine
- 8-speed dual-clutch automatic transmission with shift paddles
- Front-wheel drive, or variable-torque 4MATIC or AMG Performance 4MATIC all-wheel drive*
- 4-wheel independent suspension, adaptive damping* or 3-stage AMG RIDE CONTROL*

- DYNAMIC SELECT drive modes
- Off-Road Engineering Package⁵ with Downhill Speed Regulation (DSR) (GLB 250 4MATIC)
- 40/20/40-split folding 2nd-row seats
- 50/50-split folding 3rd-row seats*
- HANDS-FREE ACCESS liftgate open/close*

*Optional or not available on some models. Please see endnotes at back of brochure.

21

Virtual eyes keep watch on the road ahead and around you. Virtual ears listen as you say what you want. It's like having a bodyguard, copilot, and personal assistant on staff. Only there's no payroll, and you get the benefits.

TAKES DIRECTION, SHOWS THE WAY

Touch, talk, or even point, and the GLB's digital cockpit responds. The Mercedes-Benz User Experience (MBUX) features two color screens—available in two sizes—with touch interfaces on the central screen, steering wheel and console. Say “Hey, Mercedes” and you can operate features with regular language, like “I’m cold” to turn up the heat. Or say “Find me a coffee,” and MB Navigation* can search, then show turns with live on-screen video, overlaid with guiding graphics. The Interior Assistant* lets you control some cabin features via hand gestures. You can also add a built-in dashcam.* MBUX is easy to learn, but it gets better—literally: It can learn your ways over time. And be updated in your driveway, over the air.

TECHNOLOGY HIGHLIGHTS

- Mercedes-Benz User Experience (MBUX) with natural voice assistant, touchscreen, console touchpad, and steering-wheel Touch Controls
- Dual 7" or 10.25"* displays: reconfigurable instrument cluster, multimedia touchscreen
- Over-the-air software updating²
- MBUX Interior Assistant (gesture control)*
- MB Navigation* w/augmented video using live imagery of surroundings¹²; dashcam*
- Apple CarPlay™ and Android Auto¹³
- Four USB-C ports¹⁴; wireless charging*
- AMG Head-Up Display (GLB 35)*¹⁵

PROTECTIVE IN NATURE, AND CITIES

A network of radar, camera and other sensors can keep watch on the world around you beyond human ability. A focus on your blind spots can help as you drive, and alert passengers if it's not ok to open a door after you park. Hands-free parking and a birdseye view are a helpful team of options. And a package of advanced assists can adapt your cruise speed to posted limits. Let you change lanes with the tap of a turn signal. Help keep you from turning across oncoming traffic. And prep the restraint systems, if it senses a collision is imminent—even pre-triggering your ears' natural defenses for loud noises. Even in the urban jungle, it's in a GLB's nature to look out for you.

SAFETY HIGHLIGHTS

- Radar-based Active Brake Assist frontal collision mitigation⁶; Blind Spot Assist with Exit Warning Assist⁷; rearview camera⁸
- PARKTRONIC with Active Parking Assist⁹ with multicamera Surround View System^{8*}
- Driver Assistance Package^{*10} including Active Distance Assist DISTRONIC[®] cruise control; Active Steering Assist; Evasive Steering Assist; Route-based Speed Adaptation; Active Brake Assist w/Cross-Traffic Function; PRE-SAFE[®] PLUS with rear-impact preparation and hearing protection technology¹¹; and Active Blind Spot, Emergency Stop, Lane Change, Lane Keeping, and Speed Limit Assists

*Optional or not available on some models. Please see endnotes at back of brochure.

OPTIONS & PACKAGES

Practical, playful, and pioneering options let you configure a GLB that's an ideal match for your life today. Some can even help it stay ideally suited for your life tomorrow.

SUV

If versatility is what makes an SUV a perfect fit for your life, then why do so many compact SUVs compromise that very trait? Some skimp on space, or are too delicate, and some don't even offer all-wheel drive. But when your name starts with "Mercedes-Benz G," there's a lot to live up to. The GLB is engineered to adapt not just to seasons and terrain, but to your life. Its upright lines put more room inside, enough for an optional third row or a generous amount of gear. The second row adjusts 5.5" fore-aft, or 10.5" with the 3rd-row option. Available 4MATIC® all-wheel drive is agile and athletic,

adding just 120 lbs and delivering the same mpg⁴ in town as the nimble, efficient two-wheel-drive GLB. Both versions let you wrap their high-tech, high-style cabin in exterior details from bold to boldest—from standard 18" wheels, to 19" or 20" AMG® wheels and styling, with chrome or gloss black accents. GLB options add adaptive features inside, outside and underneath—such as 64-color ambient cabin lighting, active-LED headlamps that respond to curves or other cars, and a multimode suspension. A perfect fit doesn't have to grow on you. It feels right, right away. And grows with you.

221-HP 2.0L INLINE-4 TURBO ENGINE. FRONT-WHEEL DRIVE OR VARIABLE-TORQUE 4MATIC® ALL-WHEEL DRIVE. UP TO 62 CU FT OF CARGO SPACE.³ LED HEADLAMPS AND TAILLAMPS. Lots of SUVs claim they can take you off the beaten track. But how many come from a family famous for rarely getting beaten on the racetrack? Even with 302 turbo-fed horses, the GLB 35 starts raising the roof on performance closer to the ground: AMG Performance 4MATIC brilliantly balances torque to all four 19" to 21"* AMG wheels, while the 3-stage adaptive damping of AMG RIDE CONTROL further converts traction into action. From its deep front apron and vertical-bar grille to a rear spoiler lip atop its near-upright liftgate, the GLB melds function with flair. And even with seating for

seven with the optional 3rd-row seats, the cockpit is clearly driver-focused: Reconfigurable digital instruments feature AMG-exclusive displays. Three AMG Performance steering wheel options—also available with wheel-mounted controls for key vehicle settings—help cement a bond that's usually limited to drivers and their sports cars. Of course, if you'd rather have a sporty two-seater that can whisk you to 60 in 5.1 seconds,¹⁷ just fold down the GLB's rear seats. And while ordinary sports cars are terrible for taking on boxes, you're going to love the way the AMG GLB 35 takes on curves.

OWNERSHIP & EXPERIENCE

DAILY COMMUTE OR ROADTRIP, THOUGHTFUL TECHNOLOGY HELPS MAKE ANY JOURNEY A JOY.

Mercedes me connect puts a network of features in your car, on your smartphone, and in the digital world around you.² And all of them collaborate to help keep you on track, on time, and feeling you're on top of your real world.

- You can remote-start your car, locate where it's parked, configure vehicle settings from your phone, and more.
- You can look up destinations on your phone and send them to the available MB Navigation system in your car.
- You can offer WiFi to your passengers, and enjoy audio from all over the planet with TuneIn Radio.

Models with Car-to-X Communication can share info on traffic, road hazards and other conditions with each other, via a central reporting base. So you might find out about a tie-up on your route before you get caught up in it.

The map database for your car's available MB Navigation system can be updated in your driveway, over the air, up to twice a year—with no need to bring it to the dealership.

WHEREVER YOU DRIVE, THERE'S A TEAM OF SUPPORTIVE PEOPLE LOOKING OUT FOR YOU.

Mercedes-Benz was the first automaker to introduce its own Roadside Assistance Program in the US. For more than 35 years, customers have called on—and counted on—factory-trained experts in times of need.²⁷

- A button in your car can connect you. If an air bag or seat-belt tensioner is activated, your car can place the call on your behalf, and even transmit your location.
- They can send help—usually a trained dealer service technician—to your location, even for a jump-start.
- If you see a warning light, so can the experts, and they can often help diagnose trouble over the phone.

Your Mercedes-Benz dealer is helping make service and maintenance even more convenient, with options such as Express Service, Mobile Service, pickup and delivery, online scheduling, and contactless payment. Your dealer can tell you more about the specific benefits they offer.

YOUR MERCEDES-BENZ EXPERIENCE SHOULD ALWAYS FEEL SPECIAL.

Driving a Mercedes-Benz feels like joining a club, as well as a family. Wherever you go, you're part of a history that started with the first car, and always keeps racing ahead.

- For decades, groundbreaking innovations have protected, entertained and indulged Mercedes-Benz drivers first. While many have gone on to become the standard for all cars, you get to drive the future, today.
- From the AMG Private Lounge to #MBPhotoPass on Instagram, Mercedes-Benz owners have many ways to connect and interact.

Your car and your dealer are in on it, too.

- *Mercedes me* lets your car communicate its service needs to your preferred dealer.
- Your dealer can reach out to you to book an appointment or offer drive-in service.

COMMITTED TO COMMUNITY

Mercedes-Benz USA is committed to educating and empowering the next generation of diverse leaders.

To help equip them with the tools for success, MBUSA partners with two national organizations that invest in the futures of young people in communities across the country. As a Mercedes-Benz driver, you become a part of this effort to give hundreds of thousands of youth a better life today, and all of us a brighter tomorrow.

Learn more about how Mercedes-Benz USA gives back at MBUSA.com/community

A nationwide network of youth sports programs, Laureus Sport for Good USA is focused on improving the health, education, employment and social cohesion of youth in underserved communities. Since 2012, Laureus USA has helped nearly half a million young people in 150 cities.

ENDNOTES

- * Item is optional or not available on some models. See *Build Your Own* in this brochure or visit MBUSA.com for more information.
- 1 Lower-aspect-ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions.
 - 2 All *Mercedes me* services operate only where cellular and GPS signals are available, which are provided by third parties and not within the control of Mercedes-Benz USA, LLC. *Mercedes me connect assist* services, and 3 years of *Mercedes me connect* services are included at no additional charge with new-vehicle sales and leases at an authorized Mercedes-Benz dealer. Models with MB Navigation also include 3 years of over-the-air map updates (up to twice per year), 3 years of live traffic information provided by HERE Technologies, and a 1-month trial (up to 1GB) of in-vehicle WiFi and streaming audio. Subscriber Agreement is required for service to be active. Some services are only available on select vehicles. Your PIN is required to use certain services. Connection may be limited by cellular signal and other factors. Features may be introduced and updated at varying dates, and may also require a vehicle software update. Some services may be limited or restricted in some areas. Driver is responsible for complying with traffic and other laws. The *Mercedes me connect* Mobile App is compatible with Apple iPhone® models and Android-based phones, and may require a software update. See your dealer or MBUSA.com/mercedesme for details.
 - 3 Unsecured cargo can become hazardous in a collision. Always secure cargo using the floor-mounted tie-downs.
 - 4 2021 EPA estimated fuel economy (city/highway) is 23/31 mpg for GLB250, 23/30 mpg for GLB250 4MATIC, and 21/26 mpg for AMG GLB35. Compare the estimated mpg to the estimated mpg of other vehicles. You may get different mileage depending on how fast you drive, weather conditions and trip length.
 - 5 Off-road driving should only be attempted by drivers with the necessary skill, experience and understanding of the vehicle's limits. Read Operator's Manual before driving off-road.
 - 6 Active Brake Assist may not be sufficient to avoid an accident. It does not react to certain stationary or suddenly moving objects or pedestrians, may not react in certain situations where objects cannot be clearly identified, nor does it recognize or predict the curvature and/or lane layout of the road or every movement of vehicles and pedestrians ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. See Operator's Manual for system operating speeds and additional information and warnings.
 - 7 Blind Spot Assist is a warning system only. Blind Spot Assist or Active Blind Spot Assist may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It must not be used as a substitute for driver awareness and checking of surrounding traffic conditions. Exit Warning Assist feature operates up to three minutes after vehicle is switched off, or until indicator in mirror flashes three times. See Operator's Manual for system's operating speeds and additional information and warnings.
 - 8 Rearview camera and Surround View System do not audibly notify driver of nearby objects and are not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions and the presence of dirt, ice or snow on the cameras.
 - 9 Parking assistance systems are not substitutes for driver attention to the immediate surroundings, as well as any people, animals or vehicles in or approaching the vehicle's maneuvering range. System cannot determine if a space is legally available or of a suitable surface for parking. See Operator's Manual for additional information, tips and warnings.
 - 10 Even the most advanced safety systems may not be sufficient to avoid an accident. Please refer to more detailed information on specific systems elsewhere in this brochure, at MBUSA.com, and in the vehicle's Operator's Manual. Some systems may be optional.
 - 11 PRE-SAFE® closes the side windows when the system's sensors detect side movements that suggest a possible rollover or side impact. A small gap is left near the fully closed position. Audio/multimedia system must be turned on for PRE-SAFE Sound to operate. PRE-SAFE PLUS cannot prevent a collision, and does not alert the driver of an impending collision or system activation. It does not intervene if vehicle is backing up, and does not apply the brakes if the driver is accelerating or if Active Parking Assist is operating.
 - 12 While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or visual displays once the vehicle has been stopped in a safe place. Maps do not cover all areas or all routes within an area.

- 13 Apple CarPlay™ is a product of Apple Inc. Android Auto is a product of Google Inc. Device and app providers' terms and privacy statements apply. Requires connected compatible device and data plan. Apps, content and features are selected solely by their providers. Connection to apps and streaming services may be limited by the device's network connection. Data usage is routed through device and subject to fees, charges and restrictions in user's wireless plan. Vehicle's factory audio/information interface may not be used simultaneously with Apple CarPlay or Android Auto. When Apple CarPlay or Android Auto is in use, the steering-wheel voice control button accesses Siri® or Google voice recognition software for voice commands.
- 14 An adapter cable is required to connect a device with an earlier-generation USB port.
- 15 Display may not be visible with certain eyewear, including polarized glasses.
- 16 Sport steering wheel is excluded from AMG Line package if heated steering wheel is ordered.
- 17 Stated rates of acceleration are estimated based upon manufacturer's track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load.
- 18 Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST® is a warning system only. ATTENTION ASSIST and Active Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury. See Operator's Manual for system's operating speeds and additional information and warnings.
- 19 Speed Limit Assist does not adjust vehicle speed, and is not a substitute for driver awareness to posted speed limits and other conditions. Driver is responsible for safely operating vehicle in accordance with local traffic laws and driving conditions.
- 20 Active Distance Assist DISTRONIC® cruise control is not a substitute for active driving involvement. It does not adapt cruising speed in response to stationary objects, nor does it predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. Active Steering Assist requires driver to hold steering wheel and be ready to steer vehicle at any time. It may not recognize lane markings in some lighting, weather and road conditions. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely.
- 21 Active Lane Change Assist is not a substitute for active driving involvement. It estimates but does not predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the driving inputs necessary to retain control of the vehicle. System may not detect some objects, obstacles or vehicles in the area into which the vehicle would move. See Operator's Manual for system operating speeds and additional information and warnings.
- 22 No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Driver's deliberate steering inputs are required to initiate the system's action, and can override its intervention at any time. See Operator's Manual for system operating speeds and additional information and warnings.
- 23 Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. Braking effectiveness also depends on proper brake maintenance, and tire and road conditions. See Operator's Manual for system operating speeds and additional information and warnings.
- 24 Driver is responsible for safely slowing and/or stopping vehicle at intersections, and for giving right-of-way to other drivers. System is not a substitute for driver awareness to posted speed limits and other conditions. Driver is responsible for safely operating vehicle in accordance with local traffic laws and driving conditions.
- 25 The purchase of a new, SiriusXM®-equipped vehicle includes a 6-month introductory subscription to the SiriusXM All Access package. Eligible pre-owned vehicles equipped with SiriusXM will receive a 3-month trial subscription to SiriusXM All Access package. Trial length and service availability may vary by model, model year or trim. If you decide to continue your subscription after your trial, the plan you choose will automatically renew and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming subject to change.
- 26 Wireless charging and NFC pairing available only for devices with compatible technology and size. See Operator's Manual for more information. Devices sold separately.
- 27 Roadside Assistance repairs may involve charges for parts, service and towing. Vehicle must be accessible from main roads. Depending on the circumstance, these services may be provided by an outside provider, courtesy of Mercedes-Benz Roadside Assistance. Restricted roadways, acts of nature and vehicle accessibility may limit our ability to provide services to you. For full details, eligibility requirements, and limitations/exclusions of Sign and Drive services, as well as the Roadside Assistance Program, please see your dealer.
