

Livery Fleet Overview

Step up to the Mercedes-Benz Livery Fleet Program.

The Mercedes-Benz Livery Fleet Program is the new gold standard for black car service. Looking for a diverse range of luxury sedans with advanced tech, industry-leading safety and customized livery services? Then this program is for you. And when it comes to long-term savings, Mercedes-Benz delivers. With low fuel costs, fewer maintenance costs and great resale value, our sedans boast a highly competitive total cost of ownership.

E-Class is a first-class livery sedan.

- Ample leg room for maximum passenger comfort
- Luxury Styling Package with luxury black interior, exterior and Black Ash Wood
- The turbo E350 squeezes more power out of less fuel
- More standard advanced safety technology than ever
- Smartphone integration
- Dual-zone automatic climate control
- 64-color interior ambient lighting

S-Class is the ultimate symbol of livery prestige.

The flagship of the Mercedes-Benz fleet.

- Biturbo power raises efficiency, and your pulse
- Exclusive Black Nappa Leather¹
- Executive Rear Seat Package²
- 4-zone Climate Control³
- Power Rear Seats⁴
- Smartphone integration
- Premium interior lighting
- Active Parking Assist
- Burmester[®] Surround Sound System

GLS is the new pinnacle of livery capability.

GLS sets the bar for 7-passenger luxury SUVs.

- Three rows of luxury with Captain's Chairs now available at no cost
- Heated power front seats. Reclining second row, power-folding third row with adult-sized comfort
- Equipped with the new MBUX infotainment system, it's quite possibly the most capable, natural and intuitive speech interface from any automaker

Service, support and safety for your livery.

Committed customer service and support for the long haul.

- 24/7 Roadside Assistance
- Concierge Service
- Mobile Service brings dedicated vehicle care to you⁵
- All-new complimentary 2-year Pre-paid Maintenance Program on S-Class and E-Class Sedans⁶

Telematics technology keeps track of your fleet.

Assisted Services keeps your fleet in tip-top shape:

- Maintenance management
- Accident recovery
- Breakdown assist
- Remote vehicle diagnostic

Connected Services keeps an eye on your fleet:

- Vehicle tracker
- Parked vehicle locator
- Live traffic information
- Available in-car WiFi⁸

Mercedes-Benz safety and driver assistance: Peace of mind for passengers, helps protect your bottom line.

Blind Spot Assist

Icons in the side mirror light up when radar sensors detect a vehicle next to you.

PRE-SAFE[®] Sound

Vehicle emits a sound if the vehicle senses impending impact, making muscles in the ears contract to help prevent hearing loss from a loud crash.⁹

Active Brake Assist

If driver fails to respond to visual and audible warnings, braking can automatically initiate.¹⁰

Car-to-X Communication

An advanced network that communicates potentially hazardous situations between drivers.

¹ Black Nappa Leather is not a standard feature on the S 450 model. Available at additional cost.
² Executive Rear Seat Package is available at additional cost.
³ 4-zone Climate Control only available with Rear Seat Package.
⁴ Power Rear Seats available at additional cost.
⁵ Mobile Service where available. This product may not be available for all vehicle models.
⁶ Livery Complimentary 2-year Pre-paid Maintenance Program eligible models: MY20 E 350W, E 350W4, S 450V and S 450V4. Not applicable for GLS or GLE. Term: 2 years/20,000 miles. Additional maintenance may be required according to your driving habits, mileage and local environment. Please refer to your Pre-paid Maintenance agreement for details of terms, conditions and specific coverage details, including limitations, exclusions and transferability. Agreement cannot be canceled and is non-refundable, subject to any limitations under state law. Coverage may vary by state.
⁷ Livery Extended Limited Warranty program available for purchase. Coverage excludes front and rear shock absorbers. This program may not be available for all vehicle models.
⁸ In-car WiFi available at additional cost. Product may not be available for all vehicle models.
⁹ Optional equipment shown in MY19 E 53.
¹⁰ Radar-based technology can alert you if you're approaching a vehicle ahead, or even some stationary objects, at a speed and distance that suggests a collision is likely. As soon as you start to brake, it can automatically provide an appropriate level of braking to help prevent a collision or reduce its severity. If you fail to respond, it can also initiate braking automatically at a range of driving speeds. The system can also detect and react to crossing pedestrians at typical city speeds.
