Mercedes me App

(Included with any mbrace subscription)

Stay connected to your Mercedes-Benz from your smartphone.

Automatic Collision Notification and Stolen Vehicle Assistance

What would you do if you were in an emergency and your cell phone was out of reach? When mbrace detects a collision, an Emergency Response Specialist is alerted to assist and send help to your location. With built-in GPS, mbrace can help authorities with recovery efforts if your vehicle is stolen.

Remote Access with Smartphone

Locked your keys in your car? Left your laptop in plain view? Use the Mercedes me app to send commands to your vehicle, such as lock and unlock doors—right from your smartphone. You can also activate your horn and lights remotely or locate your vehicle on a map.

 Mercedes-Benz, the star logo, and Your World, From Your Car are registered trademarks of Daimler AG.

mbrace Base Package subscription required for mbrace PLUS and MB Apps. Month-to-month, annual and/or extended term payment(s) are automatically billed to customer's credit card unless service is cancelled prior to the end of the trial. Pricing for extended term subscriptions can be obtained by calling 888-826-6330. Certain restrictions and limitations of service apply.

Mercedes-Benz mbrace services are provided by Verizon Connect Inc. on behalf of Mercedes-Benz and are subject to the mbrace Terms of Service which can be found on www.MBUSA.com/mbrace or by calling 888-826-6330. Concierge and Voice-Activated Services

With the push of the *i*-Button in your vehicle, connect to a Concierge Specialist to assist with just about anything that can be arranged by phone or Internet. Mercedes-Benz Concierge is also available to use anywhere from the Mercedes me app on your smartphone.

You can also receive agent-assisted traffic information and voice-activated weather updates so you can keep your eyes on the road. Or, let an mbrace agent provide a less-traveled route.

Keep Tabs On Your Vehicle and Set Boundaries

Not everyone drives your car with the same care that you do. With mbrace PLUS, keep tabs on your vehicle when someone else is driving it. For example, you can set virtual speed limits and geographic boundaries that, when exceeded or crossed, will trigger an alert that will be sent to you by email or text.

Use your iPhone® or Android™ to interact remotely with vehicle data and controls.
