

B-Class

MY 12 F-CELL

Available in selected areas of Southern California and the San Francisco Bay Area, the B-Class F-CELL is the first Mercedes-Benz available with a Fuel Cell power system. This system incorporates an electric drive motor powering the front wheels, a fuel cell stack which generates electricity without combustion and a lithium-ion battery mounted within the sandwich floor. Coupled with brake energy recuperation, Eco start-stop functionality and fueled with hydrogen, this car is both the most fuel efficient and the cleanest Mercedes available, generating zero emissions and leaving only water in its wake.

Performance/Handling

- PEM (Proton Exchange Membrane) type Fuel Cell Stack
- Electric Front-Wheel Drive
- Zero Emission Vehicle
- Liquid-Cooled Lithium-Ion Battery with 1.4kWh capacity
- 134 hp
- 214 lb.-ft. of torque
- 0 – 60 mph 11.4 sec
- Top speed 106 mph electronically limited
- Single Speed Transmission with Automatic Recuperation Mode
- Direct-Steer Electric Power Assisted Rack and Pinion Steering
- 16" ten-spoke Alloy Wheels with Performance Tires

Safety/Security

- 24-hour Roadside Assistance Program
- mbrace In-Vehicle Services
- 8 Airbags: Adaptive Dual Stage Front Airbags, Side Airbags Mounted in Front and Rear, Full Length Head Protection Curtain
- Electronic Stability Control (ESC)
- 4-Wheel ABS Disc Brakes with Brake Assist System
- New Vehicle 3 year/unlimited Mile Warranty
